Formal Matters

Applicants note that the Examiner has acknowledged the references submitted with the Information Disclosure Statements filed on July 8, 2005 and February 28, 2006.

Applicants also note that the Examiner has acknowledged the claim to foreign priority and has acknowledged receipt of a certified copy of the priority documents.

Claims

Claims 3, 6, and 7 have been presented for examination and have been examined. Claims 3 and 7 have been rejected under 35 USC § 102 (b) as being anticipated by Document 3 of the specification, RF Power Amplifiers for Wireless Communications by Steve C. Cripps, p236, Artech House, 1999 (“hereinafter Cripps”).

Claims 8-11 have been added. Upon entry of this amendment, claims 3, 7-11 are all the claims pending in the application.

In the March 2, 2007 Office Action, the Examiner indicated that claim 6 stands objected to for being dependent upon a rejected base claim, but would be allowable if rewritten in independent form. See Office Action page 3. Applicant herein has amended claim 3 to include the allowable subject matter of claim 6, and has accordingly, canceled claim 6 without prejudice or disclaimer.

New claim 10 recites a feature of a gain compensator comprising a parallel circuit comprising an anti-parallel diode and a resistor, or a parallel circuit comprising a diode and a resistor, or a FET, or a bipolar transistor. It is respectfully submitted that claim 10 is patentable over the cited art of record. Claim 11 is patentable at least by virtue of its dependency on claim 10.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
